

POLICE DEPARTMENT

BOONTON, NEW JERSEY

TRAFFIC ALERT

March 15, 2010

On 1100 block of Main Street, between Hill Street and North Main Street. The eastbound and westbound lanes of Main Street have been shifted.

This lane shift is necessary to accommodate the partial closure of the eastbound lane. This partial closure is due to a collapse of a retaining wall below Main Street, in the Canal Side Park.

It appears, due to heavy rains, a portion of this retaining wall failed and could under mine another retaining wall, along with the roadway.

As a precaution, this lane shift has been established to minimize vibrations from vehicles on Main Street, until repairs can be made.

Parking has also been prohibited along the westbound lane of Main Street in this area to allow for the lane shift.

Pedestrian traffic is not impacted, a walkway has been established in the eastbound lane to allow for continued pedestrian use.

Motorists are advised to slow down and use caution in this area. There is currently no timetable for completion of the necessary repairs.

Capt. Curtis A. James
Boonton Police Department
862-881-2252

Thank You!
